MTEC
MANITOBA TOURISM
EDUCATION COLLEGE

ABOUT THE MANITOBA TOURISM EDUCATION COLLEGE (MTEC)

The Manitoba Tourism Education College (MTEC) is a Private Vocational Institution, regulated by the Province of Manitoba. It is a not-for-profit associated corporation of the Manitoba Tourism Education Council. The Manitoba Tourism Education College was established to meet current and long-term employer needs by preparing future employees for positions required in the hospitality, tourism and retail industries in Manitoba. The college delivers short and long-term training programs. The 6-8 week training programs include a 30 hour unpaid work practicum.

The ten month training program includes a 120 hour unpaid work practicum. The work practicum is the part of the training where students gain hands-on work experience, and in many cases employment after the training. Potential employees will be matched to employers with the goal of future employment.

PRIOR LEARNING ASSESSMENT RECOGNITION FOR THE 6-8 WEEK TRAINING PROGRAMS

If you graduate from one of the MTEC 6-8 week training programs and would like to take another training program, you will be given credit for prior learning that you received. You will be able to take one or more of the other training programs at a reduced rate of \$700 each, with the exception of Bartender & Food and Beverage Server, which will be \$900.00, and Line Cook, which will be \$1,800. The second program would be an additional two to three weeks in duration.

NATIONAL OCCUPATION STANDARDS

The Manitoba Tourism Education College curriculum is based on National Occupational Standards which describe the knowledge, skills and attitudes necessary to be considered competent in an occupation. The Standards were set by seasoned industry professionals from across the country and are validated by the industry.

National Occupational Standards represent what real employers look for in new hires and they define the level of competence required for the full range of skills in an occupation. They reflect actual workplace conditions and current issues affecting the occupation. When we say 'competent' we mean a person who meets the standards; competent employees are superior job performers.

WHY TRAIN AT MTEC

Students will benefit from the current, relevant training delivered by experienced tourism and business trainers. The college is located on a convenient bus route and has free parking for students. Each classroom has access to a kitchen, fridge, microwave and coffee and tea are provided to the students.

Student Counselling

Personal counselling is available to all of the MTEC students. The Student Counsellor assists students with personal issues that could impact their success in graduating and gaining employment after graduation.

EXPERIENCED TRAINERS

MTEC contracts trainers with expertise and experience in the areas in which they teach. The curriculum is current and relevant to your training needs and will also help build on and increase your transferable skills.

MTEC trainers all possess extensive experience in training individuals currently working in the hospitality, tourism and retail industries in Manitoba.
